

LOOKING BEYOND THE NUMBERS

ABTV is a leading business and financial advisory firm specializing in solving complex problems, improving and restoring performance, and maximizing value within organizations, whether healthy, distressed, underperforming, or just not meeting expectations. For more than 30 years, we have worked in a wide range of industries and have become well recognized and respected for our ability to get results.

Our experience has provided us with the unique ability to quickly and efficiently assess a company's business issues, from simple to complex. Our team of professionals brings the leadership, talent and extensive experience necessary to address challenging issues and capitalize on key opportunities. We do this by serving in advisory, consulting, interim management, or court-appointed roles, capitalizing on our team's professional certifications, including CTP, CFE, CPA, and CFA.

We set ourselves apart by looking beyond mere financial analysis, drawing on our keen ability to address strategic, operational, financial, and managerial considerations in uncertain environments – delivering bottom-line results. For more information, visit abtv.com.
